Welcome

ITtools for Every School

You may be up-grading to large screen interactive monitors or just protecting your iPad from harm. You may be looking across the whole range of literacy support software or just needing a spellchecker to put in your pocket.

Do you need a trackball or just a wireless keyboard with larger clearer keys? Whatever it is we have the IT tools to make learning closer and more immediate in your school.

Inclusive Technology has been the major IT supplier to special schools for 15 years. This has given us the depth of experience to offer a great range of IT tools for every school. You can see for yourself on one of our twelve free Information Days (lunch is on us too). There will be one near you. See the back cover.

I'd love your comments on our catalogue, products or service. You can email me directly at martin@inclusive.co.uk or join me on Twitter @MartinLittler.

All the very best,

Martin Littler

Terms and Conditions

FREE delivery on UK orders over £100 until 31st December 2012.

Payment Methods

We accept purchase orders from educational establishments. Invoices for orders placed using a purchase order will be sent out with the delivery, or posted separately to the invoice address if a different delivery address is specified. Fax your purchase order to **01457 819799** or email enquiries@ittools.co.uk.

Payment for orders from private customers and all non-UK customers is required upfront via a credit/debit card or by cheque. If paying by credit or debit card the card must be registered at your billing address.

VAT Charges

All prices shown in this catalogue and on our website are exclusive of VAT. Orders received from UK customers will be subject to VAT at a rate of 20%.

VAT Relief

Certain products that we sell can be purchased at a price exempt from VAT. Please see our website for full details.

Returns Policy

Goods in resalable condition, in all the original packaging, can be returned to us within 100 days of purchase, if in your opinion they are unsuitable and providing that you have honoured our 42 day credit terms (see below).

Some products are exempt from this policy and this is noted on the product page on our website.

Your rights to return goods are also protected under the EU Distance Selling Directive, which can be found at www.hms.gov.uk.

Credit Terms

Payment on orders placed with a purchase order should be made within 42 days of the invoice date. Details of how to make payments will be provided on the invoice.

Place your order online at www.ittools.co.uk
or via telephone, fax or email.

ITtools Interactive Solutions

ITtools are pleased to offer a new range of Plasma and LCD interactive touch screen solutions, ideal for all classrooms and budgets.

Our interactive solutions are affordable, adaptable and accessible, enabling you to create a truly inclusive classroom!

Three excellent reasons to buy:

- Delivery and set up worth £100 per screen is included free of charge!
- 3 years comprehensive on-site warranty
- Prices starting from just £2,550!

Prices
starting
from just
£2,550!

Affordable!

Buying the best equipment for your school within budget has never been so important and we understand that this is both a short term and long term issue.

As well as being affordable our touch screens are robust, durable and professional.

Whilst projector interactive solutions may have lower initial costs, the need to replace lamps and clean projector filters will, in the long term, make them a more expensive and time consuming solution. The flexibility of our trolley based screens means that there will be no cost incurred in rearranging classroom layouts, making it easier to make effective use of such an excellent resource.

Adaptable!

Our mobile stands give you maximum adaptability to allow for shared use or to help you to create a really flexible learning environment that is not constrained by the positioning of a display.

The built-in PC option in some of our models makes for ease of mobility around the school, giving the opportunity for shared use and ease of storage – our mobile stands fit through a standard doorway!

Wall mounted installations are ideal where space is at a premium and leave you with a clear floor space. Our wide choice of screen sizes enables you to choose the right screen to suit your users accessibility needs and room size.

Accessible!

Our plasma and LCD touch screen solutions are fully accessible, not only offering improvement in physical access because of their portability and height and tilt adjustment options, but also providing a higher quality steady and evenly backlit image, giving a better experience for you and your students especially those with visual and perceptual difficulties.

A wide range of powered height adjustment can be easily achieved by simply pressing a button. Our tilting options give a choice of angle from vertical to horizontal for improved accessibility – enabling you to use the screen as a traditional display or as an interactive table!

For a no obligation, full demonstration and/or quotation for any of our interactive touch screen solutions, please telephone **01457 819790** or email **enquiries@ittools.co.uk**

All of our solutions form an ideal focus for individual learning, group teaching and training, whilst meeting DDA requirements.

Key Features

- An excellent viewing angle, up to 178 degrees, for the whole classroom.
- No overlay which is known to degrade the image on a screen.
- By not having a projector, any risk posed by having a bright light source is avoided.
- No projector means that there is no shadow in any position and/or at any height.
- There is no obstruction near the screen, such as a projector arm.
- Superior performance and flexibility of plasma and LCD screens gives better viewing results in ambient light – a well lit classroom is better for all students and teachers.

Free software included when you buy any Plasma or LCD!

All Inclusive LCD's and Plasma's come with software to allow you to start using your screen straight away.

All Inclusive LCD screens come with Lynx Software.

- Lynx includes curriculum specific clip art and information resources for a wide range of subjects and key stages.
- Plus an annotation toolkit including pen, paintbrush, highlighting and area fill tools.
- An easy to use virtual keyboard and calculator.
- A variety of subject specific screen backdrops are available to enhance lessons including lined, graph, isometric, squared, hexagonal and music manuscript paper.
- A wide variety of high definition maps, both simple and labelled, are also provided – ready to use for lesson preparation.
- Use the curtain, spotlight and magnify facility.
- Use the keyboard to write, align, rotate and transform text.

All Inclusive Plasma screens come with MyBoard Software.

- MyBoard includes lots of easy-to-use tools and resources for making motivating activities, such as a sorting game for teaching shapes, spelling, number bonds - anything!
- Make your own sorting and sequencing activities, literacy games, numeracy tasks, 3D construction sets, colouring books, dot-to-dots, board games, design and technology activities, maps, circuit diagrams and all sorts of scenes to promote creative play.
- MyBoard includes over a 120 sample activities to get you started, plus 2,000 pictures you can use. MyBoard also has a choice of simple sets of tools that are ideal for less able learners. The sizing and positioning tools are really easy to use – great for touch screens and clumsy fingers!

Inclusive Tilt and Touch LCD

The Inclusive Tilt and Touch LCD is a high quality versatile solution which is height and angle adjustable. It combines all the benefits of a height adjustable interactive LCD with a fully featured touch table. Supplied with a fully featured built-in PC.

NEW

Key Features

- Available in two sizes: 42" & 55".
- Built-in PC included (see opposite for more details).
- Built-in speakers.
- Simple manual locking angle adjustment with smooth movement.
- Easy to change the position whilst in use.
- Includes *MyBoard* and *Lynx* Software.
- Anti-glare, anti scratch surface.
- 50,000 hours backlight life.
- Full HD (1920p x 1080p) resolution.
- PC in and out, HDMI and DVI-D connections.
- Minimum screen height - table mode - 82cm (measured from floor).
- Maximum screen height - whiteboard mode - 126cm for 42" and 134cm for 55" (measured from floor to the centre of the screen).

Built-in PC specification

The built-in PC is a fully featured PC designed for everyday classroom use.

- PC Processor: AMD Athlon 64 x 2 Dual Core 4200+.
- Hard Disc: 250GB SATA HDD.
- Memory: 4GB System Ram.
- Graphics Processor: ATI Radeon 3200 with DX10 support.
- USB: 5 x USB 2.0 ports.
- Connectivity: VGA out, DVI-D out, HDMI out, Line out, MIC in, RS-232.
- Network: twin ethernet ports, wireless network, wireless aerial.
- Digital Media: 6 in 1 card reader.
- Operating System: Windows 7 Professional 64 bit OEM DVD.
- DVD Player: Blu-ray DVD-Rom, DVD re-writer, Blue-Ray play back software.
- Keyboard: Wireless keyboard and mouse.
- Speakers 2 x 15W.

The Tilt and Touch LCD provides a choice of screen angles.

The electronically operated height adjustment and easy tilt mechanism makes it easy to accommodate all users. The unique open base means there is room to sit comfortably when using it as a touch table, and there is space for wheelchair users to get close.

The locking multi-tilt system gives a wide choice of screen angles - it tilts up to 30 degrees for easier reach, or in steps right back until it becomes a flat touch table.

------	--------------------	--------

Inclusive Interactive Plasma Screen

The Inclusive Interactive Plasma Screen solution is built around the professional range of screens from Panasonic. Panasonic plasmas offer a tough display with a 100,000 hour screen life that will see you through the coming years. The interactive displays can be supplied on a height adjustable trolley or wall mount.

NEW

FREE delivery until 31st December 2012.

Truly Professional Panasonic Displays

Touch display – the front of the plasma is covered by a glass panel that provides a strong resistance to impacts. It is easy to clean - simply wipe with a smooth cloth when needed.

100,000 hour screen life – the Panasonic plasmas have a screen life of up to 100,000 hours. That's an amazing 42 years of normal viewing (6.5 hours per day) or 11.5 years of continuous use (24 hours per day)

High contrast ratio – for remarkable images in nearly any viewing environment

Smooth, crisp motion images – movement is reproduced with the high resolution needed to deliver its full impact.

The Inclusive Interactive Plasma Screen has quick and easy, powered height adjustment.

It can quickly be adjusted to suit tall teachers, toddlers or wheelchair users, and to support individual use or whole class teaching. You do not need to re-calibrate the screen each time.

Key Features

- Available in 42" & 50"
- Laptop shelf neatly folds to rear.
- Additional power socket on trolley for laptop.
- Windows plug and play.
- Apple OS compatible.
- Impact resistant front glass panel.
- 1024 x 768 HD resolution.
- PC, HDMI, DVI-D & component connections.

Height Adjustable Wall Lift

We can supply your plasma with a height adjustable wall mount. It has electronically driven height adjustment.

5709	42" Interactive Plasma Screen with Stand	£2,995
5710	50" Interactive Plasma Screen with Stand	£3,995
5747	42" Interactive Plasma Screen with Wall Lift	£2,995
5748	50" Interactive Plasma Screen with Wall Lift	£3,995

Inclusive Tilt and Touch Plasma

The ultimate in flexibility and accessibility. The Inclusive Tilt and Touch Plasma adjusts for height and adjusts for angle. It combines all the benefits of a height adjustable interactive plasma with a fully featured touch table.

FREE delivery until 31st December 2012.

Key Features

- Currently available with 42" and 50" Panasonic Interactive Plasma Screens.
- Remote controlled, powered height adjustment.
- Simple manual locking angle adjustment with smooth movement.
- Supports multi-touch software.
- Easy to change the position when in use.
- No distracting shadows.
- Suits toddlers, wheelchair users and tall teachers.
- Bright, clear image - no need to darken the room.
- Very rarely needs calibration.
- Wide viewing angle and no hotspot - good for visually impaired users.
- No projector - no risk from staring into a high powered lamp.
- Quiet - no cooling fan to distract the hearing impaired.
- Low lifetime cost - no consumable items like projector lamps.
- Uses less power than a digital projector.
- Low maintenance - no filters to clean.
- Three years comprehensive on-site warranty.

The Locking Multi-Tilt System

The Tilt and Touch provides a choice of screen angles

The electronically operated height adjustment and easy tilt mechanism makes it easy to accommodate all users. The unique open base means there is room to sit comfortably when using it as a touch table, and there is space for wheelchair users to get close.

The locking multi-tilt system gives a wide choice of screen angles - it tilts up to 30 degrees forwards for easier reach, or in steps right back until it becomes a flat touch table.

Removable Laptop Shelf

The Tilt and Touch Plasma also comes with a laptop shelf which maybe removed if preferred.

When the Plasma is a table top, it measures 730mm in the lowest position and 1400mm in the highest.

Pricing for the Inclusive Tilt and Touch Plasma with Height Adjustable Stand:

4493	42" HD Tilt and Touch Plasma Screen	£3,995
4494	50" HD Tilt and Touch Plasma Screen	£4,995

FREE delivery until
31st December 2012.

Purchasing Information

Simply select your screen size then contact our friendly team on **01457 819790**. Your screen will be delivered, fully installed with your laptop and a 15 to 20 minute demonstration provided to get you started. Available with built-in PC, please see website for details.

For further information, videos and reviews visit www.ittools.co.uk or speak to us on **01457 819790**

Inclusive One Touch PC

The all-in-one Touch PC designed for the classroom. Touch screens offer direct and intuitive access to software, ideal for many learners. The Inclusive One Touch brings the benefits of touch screen technology to a robust, specially designed classroom computer.

Inclusive Slate Tablet PC

The Inclusive Slate is a Tablet PC that runs Windows 7, it gives you access to all of your usual Windows software on an ultra portable device at an affordable price, ideal for your classroom.

With the Inclusive Slate you can run all of your standard Windows applications, such as Microsoft Office and Firefox, and all of your special needs programs, as well as your other educational software. Two standard USB ports mean you can plug in all of your existing peripherals, from standard keyboards and mice as well as other access devices. Windows 7 allows you to access websites using Flash, such as our HelpKidzLearn, and online resources using Java, such as Crick's WriteOnline. The built-in SD card slot and USB ports makes file transfer to and from the device easy with no file synchronisation to another computer and the Wifi allows you to connect to your school network.

- OS: Microsoft Windows 7 Home Premium.
- Connections: Bluetooth 2.1, integrated 802.11b/g/n WiFi.
- Processor: Intel Pineview-M N450 + ICH8M, 1.66 GHz.
- Memory: 2GB 800MHz DDR2.
- Mass storage memory: SSD 32GB.
- Battery life: over 3 hours.
- Screen: TFT LCD 11.6" HD GLARE (1366px X 768px).
- Camera : 1.3M pixel (fix focus) webcam.
- Touch panel: capacity multi-touch panel with display orientation.
- Audio: 2 built-in speakers (1.5W), 1 microphone.
- One year return to base warranty.

Introducing the Inclusive LearnPad™

The Inclusive LearnPad™ is a touch sensitive computer Tablet that provides a safe and simple way to access a vast range of eLearning content including Android Apps, websites, and Flash based activities. It comes complete with a range of pre-installed content as well as providing a way of centrally managing and configuring multiple LearnPads™ through a simple intuitive interface.

NEW

Runs Android

LearnPad™ is a 10.1" interactive eLearning computer Tablet, designed specifically for use in schools. It's small enough to be portable yet large enough to give a great user experience. It can be used as a stand-alone device with dedicated eLearning content or can connect to your network to access traditional online and Flash based educational websites and online resource.

Key Features

- Connections: MicroSD slot, Mini USB, Standard USB, 3.5m audio output, docking port.
- Secure and controlled user interface and child safe web browser to allow access to approved online content only.
- Works with existing eLearning content, from well-known companies such as Inclusive Technology.
- Compact, light weight and portable, with an 8 hour active battery life.
- Highly reliable and very low maintenance.

5931 Inclusive LearnPad™ Tablet

£295

Inclusive LearnPad Case

The LearnPad™ Case provides dual functions: a protective cover and also a stand to position it at the ideal angle for children to use without needing to hold it. The case has small magnetic clips on the edge to hold it closed and protect the screen from damage.

5932 Inclusive LearnPad™ Tablet Case

£25

Inclusive LearnPad Mount

Our Perspex Desk Mount can be fixed to a desk, a wall or even a wheelchair for SEN students. The LearnPad™ can be slid in and out of the desk mount easily and a secure locking catch at the end will hold it in place when needed.

5933 Inclusive LearnPad™ Tablet Mount

£20

Central Management

The Inclusive LearnPad™ has been designed with schools in mind and as such has a unique web based central management system that allows teachers and administrators to manage and control multiple LearnPads in a school, group Learnpads together for classes or school years then control which applications and content are made available. You can even create your own user interface for LearnPad™ and define your own categories, backgrounds and icons!

Content Delivery

As well as central management, LearnPad™ has a custom designed content delivery system, allowing administrators to upload, store and automatically deliver new content directly to individual or grouped LearnPads, all from one central location. Send your own documents, videos, Flash content or even applications directly to LearnPad™ safely and securely from a central portal.

Content Suite

The Inclusive LearnPad™ comes complete with a range of pre-installed content designed to meet specific areas of the teaching curriculum. It also supports existing eLearning content and, unlike the iPad, can run Flash based activities and websites such as www.helpkidzlearn.com.

Flash Content

As well as the Content Suite pre-installed applications, LearnPad™ supports existing flash based eLearning content from industry suppliers including Inclusive Technology, Education City, 2Simple, Sherston, eChalk, Yellow Door and websites such as My Maths, TES iBoard and BBC School.

Full Specifications

- 10.1" LCD Capacitive Multitouch 1024x600 Screen.

Big Grips Frame and Stand for the iPad and iPad2

Protective case for the iPad/iPad2 – lightweight, durable, easy to clean, easy to grab, comfortable to hold and very grippable! Made from a soft, squishy foam. An iPad fits snugly into the frame. That means fewer slips, drops and tumbles - and plenty of cushion just in case. A matching stand is available allowing you to easily work at a desk or position your iPad at a variety of angles.

Big Grips Frame

Key Features

- Excellent protection for your iPad or iPad2.
- Easy to clean.
- Durable and lightweight.
- Resistant to oils, chemicals, stains, moulds and germs.
- Non-toxic, lead and latex free.
- Easy access to all ports and controls.

Big Grips Stand

NEW

Available in four great colours!
Choose from green, pink, grey and blue.

Specification

Big Grips Frame

- Easy access to all ports and controls.
- Unobstructed cameras (iPad2 version), Wifi antenna and ambient light sensor.
- Size: 9.47" x 11.57" x 1.5" (240mm x 294mm x 38mm).
- Weight: 7.125oz. (0.20kg).

Big Grips Stand

- Big, sturdy and stable.
- Size: 5.5" x 12.7" x 2.8" (140mm x 322mm x 71mm).
- Weight: 9.25oz. (0.26kg).

Please note: although we can't guarantee the safety of your iPad or iPad2, we do provide a one year warranty on Big Grip Frames and Stands.

Pricing

n/a	Big Grips Frame iPad/iPad2	£24
n/a	Big Grips Stand iPad/iPad2	£15
n/a	Big Grips Frame and Stand iPad/iPad2	£35

Please specify colour and if the case is for the iPad or iPad2 when ordering. iPad not included.

Kurzweil 3000-Complete Reading and Writing Environment

Kurzweil 3000 is a powerful reading, writing, test taking and learning environment that can make the curriculum accessible for those who struggle to write or access print. It can read text aloud from digital and print formats whilst providing the structured support necessary to enable individual success.

Kurzweil 3000 is particularly appropriate for those with specific learning difficulties including dyslexia or those visual impairment as well as learners with physical difficulties or who are learning English as a second language. *Kurzweil* is one of the most comprehensive and integrated solutions for addressing language and literacy learning difficulties. It takes a multisensory approach, presenting print or electronic text on the computer screen with added visual and auditory accessibility features. It supports the complex tasks of vocabulary development, comprehension support, study skills and writing support.

Key Features

- Text to speech support for reading and writing.
- Talking spell checker, dictionary and thesaurus.
- Study tools including bookmarks, highlighting and sticky notes.
- Writing tools including word prediction and word banks.
- Outlining and concept mapping tools.
- Bilingual and picture dictionaries.
- Reads out web pages or online books.
- Vocabulary and word study.
- Access to digital text in formats including HTML, PDF, DAISY, DOC, TXT, RTF, TIFF and scanned documents.
- Converts any text to an audible MP3 file.
- Independent test taking, with talking tests and worksheets.
- Translate text to and from Spanish, French, German, Italian, Portuguese, Finnish, Polish, Dutch, Swedish, Danish and Norwegian.
- Multi-lingual, high quality text to speech throughout.

Kurzweil provides reliable digital access to curriculum materials, tests and quizzes, while maintaining the formatting, images and integrity of the original document. It includes the highest quality Optical Character Recognition (OCR) technology to reproduce scanned documents. *Kurzweil 3000* offers the same user interface regardless of whether learners are reading, writing, comparing notes or taking a test...they can learn it once and use it forever! Students can toggle toolbars on or off as needed so no need to switch programs or learn new navigation during the transition from reading and research activities to the writing process. All of *Kurzweil 3000's* toolbars can be customised to meet any specific objective.

Kurzweil provides:

- Access to all major digital file formats and printed materials.
- A single user interface containing all the tools needed for academic success.
- Support for fluency, vocabulary, comprehension, writing, study skills and test taking.
- Tools for research based study skills and writing strategies.
- A platform for whole class, small group or individual teaching.

Co:Writer 6 - Intelligent Linguistic Word Prediction

Co:Writer 6 works in conjunction with any application you write in, like MS Word, on web sites, blogs, in emails, etc.
Co:Writer 6 interprets spelling and grammatical mistakes and offers word suggestions as you type.

Co:Writer is the only word prediction program to use the context of a whole sentence to predict the next word. This provides the most accurate prediction available - crucial for the most struggling writers. With Linguistic Word Prediction, Co:Writer knows the grammatical value of each word in its dictionaries.

When Co:Writer learns new words collected from articles or a pupil's writing, it automatically assign grammar to them. With grammar-based intelligence, Co:Writer can accurately predict words within the framework of valid sentence structures. It also gives flexibility to the words it learns by automatically predicting in multiple tenses and usages.

Co:Writer's FlexSpell™ provides every conceivable letter pattern students will try in an attempt to spell words, so interpreting phonetic and inventive spelling. It offers correct word choices that even the most sophisticated spell checkers cannot produce.

Co:Writer gives a choice of 5 main dictionaries from 1,000 to 40,000 words so is usable with a wide age and ability range. Each main dictionary can be supported by over 500 Topic Dictionaries, providing subject specific support.

Key Features

- Redesigned interface - just one intelligent window that sits over any application.
- Word bank - have an on-screen bank of topic specific words. View them as a list or Word Cloud. Click to hear them and send them into any application.
- Spelling revision - click on a misspelled word to have Co:Writer 6 suggest the correct spelling.
- Speech anywhere - highlight and read out any on-screen text.
- New speech engine - new range of more human sounding voices including British English. Now compatible with other available UK voices like Scottish Heather and British Asian Sangeeta.
- Network ready - network functionality now built in. Access profiles anywhere on your network, WebDisk or on a USB drive for support anywhere.
- Compatible with - Windows XP, Vista and 7 and Mac OS 10.4 to 10.6.

Please note: Multiple user licences can be used across a number of sites. However, a site licence can only be used at a single site. Please telephone for upgrading details and prices.

Write:Outloud 6

Simple Talking Word Processor.

Write:Outloud 6 is an easy to use talking word processor designed specifically to support struggling writers. It will speak out letters, words, sentences and paragraphs in any combination as the student types, providing real time auditory feedback. *Write:Outloud 6* features a talking Franklin spell checker and dictionary and speaking homophone checker to help students easily revise and edit their work. Students can easily export completed documents from *Write:Outloud 6* to any other word processing program.

4574	Win/Mac CD-Rom 1-4 licences each	£66
4578	Site licence	£399

More licences available, see www.ittools.co.uk

Read:Outloud 6

Text Reader and Talking Web Browser.

Read:Outloud 6 is a text reader that gives struggling readers access to a whole range of electronic documents - PDF, DAISY, TXT, HTML and XML. It also has a built-in accessible web browser so struggling readers can listen to any web page. *Read:Outloud's* study tools (eHighlighters, notes, interactive outline) help students capture facts and information and improve reading comprehension.

4588	Site licence	£625

More licences available, see www.ittools.co.uk

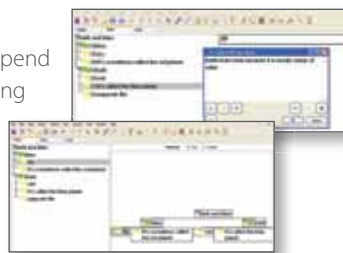

Draft:Builder 6

Graphic Organiser.

Research has shown that struggling writers typically spend less than one minute planning their written work.

Draft:Builder 6 is a graphic organiser that breaks the writing process into three manageable chunks - organising ideas, expanding ideas and writing the first draft. With this simple structure, students quickly learn to generate ideas and organise them to form a coherent written document. Particularly useful for students with poor organisational skills and helps struggling writers develop deliberate, systematic and strategic writing habits for improving writing quality.

4579	Win/Mac CD-Rom 1-4 licences each	£85
4583	Site licence	£625

More licences available, see www.ittools.co.uk

SOLO 6 Literacy Suite

Buy all these applications in one SOLO Suite and save!

Combines *Co:Writer 6*, *Write:Outloud 6*, *Draft:Builder 6* and *Read:Outloud 6* in one fully integrated package. SOLO can be less overwhelming than one single application addressing all of these needs, as each tool can be used independently as needed to address one aspect of reading and writing that the student is struggling with.

4589	Win/Mac CD-Rom 1-4 licences each	£480

TextHELP Read&Write 10 GOLD

Read&Write 10 GOLD is a literacy support software, designed to assist those who require help with their reading and writing. Read&Write GOLD is a discreet, customisable toolbar that floats alongside the main applications, such as Microsoft Word, Internet Explorer, and Adobe Reader.

Read&Write 10 GOLD's text-to-speech feature will speak out individual letters, words, or sentences as the user types allowing them to listen for mistakes in work while writing. Text-to-speech also reduces the strain of reading when correcting long documents. There are a range of highlighting and screen masking options available to make text more accessible.

To support writing, *Read&Write 10 GOLD* provides a phoenetic spell checker, word prediction with subject specific dictionaries, a Word Wizard to suggest new or alternative words and a Sounds Like and Confusable Words option to identify homonyms and homophones. *Read&Write 10 GOLD* also provides speech recognition to convert speech into text. To support reading, *Read&Write 10 GOLD* provides three types of talking dictionary - Basic, Advanced and Online – providing a definition and sample sentence to help the user to understand the meaning of the word in context along with alternative suggestions. The Picture Dictionary will display a picture of any word selected along with a written definition if required. The SpeechMaker option will convert any document into an MP3 audio file using high-quality voices that can be transferred to an iPod, MP3 player or mobile phone to listen to anywhere. *Read&Write 10 GOLD* also provides a range of study tools such as electronic highlighters, Fact Mapper graphic organiser, and Fact Finder search tool.

5092	Read & Write Gold V10 CD-Rom PC	£320
5093	Read & Write Gold V10 CD-Rom Mac	£320
4706	Gold V10 Primary site licence	£1,150
4707	Gold V10 Secondary site licence	£1,995

More licences available, see www.ittools.co.uk

Pre-set toolbars are available, including ones that display All Features, Reading Features only, Writing Features only, or Research and Study Skills Features only. My Features is where you can determine the specific features you want on the toolbar. Settings, Video Tours and Support can be viewed by clicking on the arrow next to the "Texthelp" icon. Additionally, Help can be located by clicking on the question mark.

What's new in Read&Write 10 GOLD?

- Picture Dictionary to improve comprehension.
- Verb Checker to identify correct verb conjugations.
- Vocabulary Tool to expand vocabulary.
- Enhanced Text-to-Speech, Translator and Study Skills.
- Enhanced Speech Maker to convert text to MP3.
- Enhanced Screenshot Reader to read inaccessible text.
- Enhanced Homophone and Confusable words.

Read&Write 10 Gold Mobile

Read&Write 10 GOLD MOBILE comes on a USB pen and allows users to run *Read&Write 10 GOLD* on any computer with no installation necessary. Users simply plug the device into the USB port of any computer running Windows Vista, XP or 2000 and they are ready to use the software. This portable storage device allows you the freedom to store, transfer and carry your data securely anywhere.

ClaroRead V6

ClaroRead V6 is a simple and discreet floating toolbar that adds text to speech to Microsoft Word, Internet Explorer and other programs. ClaroRead V6 will read back letters, words and sentences as they are typed, so that struggling writers can listen for mistakes whilst writing.

NEW

ClaroRead is a highly effective multi-sensory software solution for supporting individuals who struggle with reading and writing. Designed with maximum simplicity, adaptability and flexibility, users of any age and level of ability will have a world of information unlocked through *ClaroRead*. As *ClaroRead* is closely integrated with *Microsoft Word* and Internet Explorer, practically any text can be spoken aloud by this powerful software. Users can also benefit from the addition of included visual tools that colour, highlight and focus on difficult to read text as it is spoken by the computer. Words can be spoken back as they are typed, ensuring the accuracy of written papers, tests and study notes. When working in *Microsoft Word*, *ClaroRead's* Font button allows the font size, type and colour of the whole document to be modified very easily. *ClaroRead* also includes the Tiresias family of fonts that have been designed for optimum accessibility and usability.

ClaroRead provides a single Check button for use in *Microsoft Word* that combines a homophone dictionary, thesaurus, reference dictionary and spell checker, making the checking of the text and documents easier and more comprehensive. If a word is a homophone the Homophone Check box will

appear, along with their meanings. If the word has alternative words with the same or similar meaning, the Meaning Check box will appear. Users can then view more to see the dictionary definition. It is possible to spell check individual words or the whole of the document at any point. The Check boxes are fully speech enabled, so hovering the mouse over the words will make them speak. There are now over 2000 picture icons to help identify word meanings.

Word prediction can help struggling writers concentrate on the content of their work and not their typing and spelling skills. *ClaroRead's* 100,000-word prediction dictionary is even swifter at helping users find the right word for the right context. Predictions are now matched phonetically, and according to context; they are no longer just based on spelling. *ClaroRead Plus* now includes Claroldeas, an easy to use but powerful and graphical organisation software solution for assisting with research, planning, outlining, studying and presenting.

3354	ClaroRead Pro Windows CD-Rom	£199

FREE demo disc available - call 01457 819790

WordBanks

WordBanks allows writers to send whole words or phrases directly into a word processor by simply pointing and clicking. Speech feedback allows writers to listen to words or phrases before selecting, giving them an informed choice. *WordBanks* can encourage poor spellers to use more complex words than they can normally spell, and also speeds up the writing process. *WordBanks* allows a teacher or student to quickly create on-screen word banks. Simply import a list of words from any source using the *WordBanks editor*. Users can decide the size

of each word bank, how to index it, whether the words will speak and other options. The word bank can then be published and run, and words can be selected using a mouse device or touch screen. This makes it easy to provide topic or subject specific support in any subject or area.

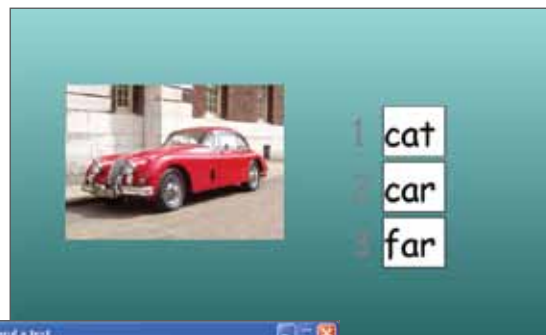

5717	Windows CD-Rom	£59
------	----------------	-----

For more information about Claro software, see www.ittools.co.uk

Lexion

Lexion is a computer-based system for pupils with language related learning disorders, dyslexia, or aphasia. Lexion makes it easy to assess pupils who are struggling with reading and writing. Simply select a test for their age and area of difficulty and Lexion will analyse the result, displaying the results in charts and text. It then automatically creates exercises to address the difficulty.

Lexion is a computer based system for stimulating and training people with language related learning disorders, dyslexia or aphasia. It covers the most fundamental processes in learning reading and writing, including phonological awareness, letter/sound correspondence, syllable and morpheme segmentation and blending, grammar, spatial skills, arithmetic and understanding the clock.

The Lexion analysis helps to assess whether a child will have difficulties in reading and writing during their first years in school. It can also be used as a screening tool when a new stage in reading and writing education is to begin, or where a certain level of ability should have been reached.

Lexion uses standardised testing data for an in-depth assessment covering the cognitive language processes. Simply select an age-appropriate test for the area of difficulty and Lexion will analyse the answers given and display the results in easy-to-follow figures and charts.

The tests cover:

- Phonological awareness.
- Blending and segmentation.
- Single word decoding.
- Reading comprehension.
- Spelling.
- Short-term memory.
- Sequencing skills.

Following the tests, Lexion will create exercises for the pupil according to the results.

The exercises also cover a wide range of areas, including:

- Phonology.
- Writing the word.
- Letter sequencing.
- Matching words to a picture or sound.
- Comprehension.
- Assembling syllables.
- Sentences and texts - exercises in grammar, syntax and comprehension.

The pupil can practice the exercises either at school or at home, and as they improve, they can be re-tested to assess progress.

Lexion has been developed in Sweden over the last 18 years.

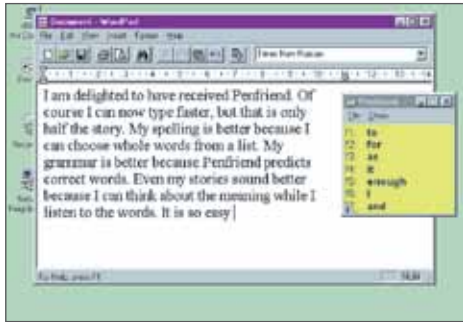

About 80% of the Swedish schools use Lexion, most on a daily basis.

1938	Lexion teacher licence	£290
1939	Additional teacher licence	£60

Penfriend XP 4.0

Penfriend XP is a powerful tool for those with dyslexia or physical disabilities, adding word prediction, speech and an on-screen keyboard to almost any other software.

Now with even better prediction and more lexicons, including a 30,000 word lexicon for adult users.

Key Features:

- New voices for French.
- Improved voices for British English and American English.
- Alphabetical sorting of predictions, as an option.
- Horizontal layout of predictions, as an option.
- Clearer and more colourful display of predictions.
- Improved smart punctuation, and learning words within quotations.
- Improved interaction and keystrokes including tabs.
- Improved speaking of words.
- Major expansion to the possibilities with abbreviation expansion.

Penfriend XP offers considerable support for users with special needs, helping with spelling, confidence and speed of composing text. It will also read out almost any text, such as web pages or word processed documents.

Penfriend XP will work with your word processor and tries to guess the word you are typing when you have entered the first letter, the second letter and so on. One key press then finishes the word for you. It also learns the words you use frequently and recently, so it improves as you use it.

This information is saved for each individual user, together with individual settings. In addition, it is easy for teachers to select preferences, edit children's lexicons and add topic specific vocabulary.

If you use *Clicker*, *Penfriend XP* can enhance your grids with prediction. It also integrates with Switch Access for Windows. As with *Clicker*, *Penfriend* predictions appear in the SAW grids without *Penfriend* being visible.

Pricing

5022	XP 4.0 CD-Rom single user PC	£60
5023	XP 4.0 Windows Additional User Licence	£20

Penfriend XL 4.1

Penfriend XL has all the features of *Penfriend XP* as well as a multiple onscreen keyboards. *Penfriend XL* comes with several lexicons for each language which currently include French, German, Spanish, Italian, Portuguese, and Swedish as well as UK English and Scottish Gaelic.

Key Features

- A Homophone option in the prediction window to support literacy.
- Type on hover to help mobility for the on-screen keyboard.
- Speak on hover to support typing with the on-screen keyboard.
- A transparency option so you can see all your desktop Windows and icons when *Penfriend* is running and discretely use *Penfriend* without anyone knowing!

Clicker 6

Clicker is the award winning literacy tool that enables pupils of all abilities to significantly develop their reading and writing skills. This year, Crick Software has released the latest version of this much loved software – Clicker 6.

NEW

Whether you are working in mainstream education or a special needs setting, Clicker is the perfect tool for helping all your pupils achieve reading and writing success. *Clicker* enables children to learn and progress within an easy to navigate, motivating environment tailored to their individual needs. *Clicker 6* builds on the acclaimed support features of its predecessor. It combines customisable pupil support tools that empower children to work independently, with intuitive activity wizards that make it easier than ever before for teachers to create and edit *Clicker* activities.

What's new in Clicker 6?

More pupil independence!

- **Quick start word processor** – children are able to start working straight away!
- **Primary word predictor** - this intelligent predictor suggests words that fit the context of the pupil's writing.
- **Enhanced picture library** - over 2,500 curriculum pictures, which are available for use in documents, *Clicker Sets*, the predictor and the spell checker!
- **Built-in painting tools** – Crick's popular painting program, *Clicker Paint*, is now fully integrated into *Clicker*.

5673	Clicker 6 CD-Rom site licence	£1800
5674	Clicker 6 CD-Rom home user	£74

- **Webcam support** – pupils' photographs instantly appear in their *Clicker* documents.
- **Favourites list** – children save their favourite *Clicker* activities for easy future access.
- **Click & Edit books** – enable pupils to independently create their own talking books and presentations.

Less teacher time!

- **Clicker wizards** - follow the step by step instructions to quickly create personalised reading, writing, matching, labelling, speaking and listening activities.
- **New editing tools** - editing activities made simple! Click on a cell and the toolbar instantly changes to display only the tools relevant to the item being edited.
- **Faster access to Learning Grids** - no need to login, access hundreds of free resources instantly from within *Clicker*.

e-pen Mobile Notes USB PC

£79

The Intel® Reader from Intel-GE Care Innovations™

Transforms printed text into speech - anytime, anywhere! The Intel® Reader from Intel-GE Care Innovations™ is a portable, hand held device designed to help students with reading based difficulties, such as dyslexia or impaired vision, to access printed material. It combines a high resolution camera with the power of an Intel® Atom™ processor to convert printed text to digital text, and then read it aloud to the user.

Intel® Reader

Weighing just over 600 grams and about the size of a paperback book, the Intel Reader provides all the power of a bulky PC plus scanner in a convenient size for school, home or on the move. The Intel Reader fits easily into a schoolbag or backpack and has a sturdy magnesium case and generous battery life of up to 4 hours continuous use.

In the classroom, teachers can continue to use existing worksheets and other printed material. Students can use the Intel Reader to access course material and lesson content as it is handed out. They simply point, shoot, and quickly listen to handouts, tests and books, and the earphones allow private listening, clearly and discreetly, without disturbing others. The Intel Reader can read back text in a variety of voices and speeds. During play back, the text is highlighted as it is read aloud, and users can have the Intel Reader pause and spell out highlighted words. It all helps students become independent learners.

The Intel Reader helps students organize and access their captured documents efficiently so they can accomplish tasks faster. With over 2GB of storage space, pupils can store up to 600 pages of captured text or over 500,000 pages of text only documents. The library feature lets students bookmark favourite documents for fast access. They can navigate within a document by word, sentence, or by page, and they can go to a specific page or jump to the beginning or the end. The Intel Reader can store and play back a wide choice of content as well as captured text. It will play most content, including DAISY books and even text transferred from a PC, as well as MP3 or WAV music files. It can also generate audio versions of printed materials, as MP3s, that can be played on most digital music players or computers. A USB connection makes it easy to transfer files to or from a PC.

4387

Intel Reader and Capture Station

£499

Intel® Portable Capture Station

An optional accessory, the Intel® Portable Capture Station is a sturdy stand that holds the camera in position to enable quick and convenient capture of large amounts of text. A transparent film holds books flat and the large, easy to find capture button on the base helps users quickly capture lots of pages. The stand folds into a convenient briefcase size with built-in carry handle. The Intel Reader will function without the Intel Portable Capture Station.

4388

Intel Portable Capture Station

£99

Reading Pen Oxford Edition

This amazing little device has been revised and will now scan a word or a whole line from printed text and then display it in large characters. It will read the word to you and then show or read a definition from the Oxford Concise Dictionary. It will also read the definition. And if you are left-handed it flips its display over.

0603

Reading Pen Oxford Edition

£175

Reading Pen Oxford Touch Screen

Now can also scan and store up to 20,000 lines of editable text that can quickly transferred to a computer via a USB cable. It reads words and definitions aloud, giving users the independence to read on their own. It scans single words or full lines of text and displays the selected word in a large font for clearer viewing. It displays definitions of the scanned text on the LCD screen. It can also spell out scanned words, highlighting individual letters. The Reading Pen reads text in a British accent using the built-in speaker or earphones. Recognises over 240,000 words and you can look up idioms/phrases. Recognises a wide range of printed font types and sizes (6-22 points).

Dragon Naturally Speaking Premium 11.5

The latest edition of Nuance's fantastic speech recognition software is faster and more accurate than ever. *Dragon* gives you the power to turn your voice into text in a quick and natural way—three times faster than the average keyboard typist. Create documents, send email, control applications and navigate the Internet, all just by talking. Use a digital voice recorder and transcribe the audio files back to your PC. *Dragon Naturally Speaking Premium 11.5* has an enhanced user interface, improved correcting and editing, time saving voice commands and improved speed and accuracy that

copers well with a variety of regional accents and different voices. The Premium version of *Dragon Naturally Speaking* software allows you to create your own voice commands for efficient navigation and performing tasks on your computer. The latest features of *Dragon* include several new options to make it easier to use and includes new voice commands for those who enjoy social networking with Twitter and Facebook.

Olympus Digital Voice Recorders

With three recording modes: dictation, conference and lecture. Low cut recording to reduce interference; voice filter to emphasise the human voice; WMA and MP3 playback; 23mm high output speaker; voice guided menus and audio instructions for convenience.

These eye catching, metal bodied digital voice recorders provide fully fledged, professional features for the breathtaking capture of voice and audio in numerous formats, including Linear PCM exceeding CD quality, whilst also delivering outstanding capabilities for the highest quality and convenient playback of music, audio books and even podcasts.

While the dual stereo microphone setup in previous models facilitated superb true stereo recordings, the incorporation of a third, central microphone takes quality audio capture to another level.

This combination of microphones means that recordings - particularly those of the human voice - are even more balanced and life like, covering a broader spectrum of sound, from low to high frequencies.

- The DM-670 has 8GB of memory.
- The DM-650 has 4GB of memory.
- The recorders feature a micro SD card slot for additional memory power.

Please note:

Includes 2 x AAA batteries, stereo earphones, DSS player CD, USB cable and carrying case.

Memory Quest

The new memory training software.

This innovative software provides working memory training for learners of all ages. Training with memory games has been shown to improve arithmetic skills and verbal working memory in children with ADHD. There are eighty different exercises, as well as two different interfaces, one junior and one senior.

Memory Quest includes:

- A unique home page for the training software with material for teachers, such as rating scales, diplomas, evaluation sheets etc., as well as research and new training programs.
- A book about working memory and working memory training by Clinical Psychologists Erik Truedsson and Stefan Strohmayer.
- Tools for evaluating training.
- Tools for creating unique training programs.
- The ability to import new training programs.

Communicate: Ideas

Communicate: Ideas

enables thoughts and ideas to be mapped out and linked together within colourful mind maps which feature Widgit Symbols.

Combining the visual tool of

mind mapping with symbol support, it enables people who struggle to formulate thoughts verbally or in writing to map out thoughts, ideas and work.

Create personal and interactive documents by adding your own images or photos to a mind map, as well as links to websites, sound clips and videos.

Communicate: Ideas provides the ideal tool for presenting and mapping out inclusive symbol supported discussions in any environment, whether with an individual on-screen or in print, or with a group on an interactive whiteboard.

Communicate: Ideas comes with the full *Widgit Symbol Set* and a large bank of clipart images.

Inspiration V9

For visual mapping, outlining, writing and creating presentations. Brainstorm ideas, structure your thoughts and visually communicate concepts to strengthen understanding with the Diagram and Map views.

To take notes, organise information and structure writing for plans, essays and reports, use the integrated Outline view.

With *Inspiration's* Presentation Manager, transform your diagrams, mind maps and outlines into polished presentations that communicate ideas clearly. Supports the planning and writing of essays, stories, letters, reports, websites, presentations and projects. Export documents as PDFs - ideal for using resources within a VLE.

- Pupils develop essential learning strategies as they create visual diagrams to represent mind maps, concepts and relationships.
- Compile and sort a wide range of digital resources into a central *Inspiration* document. HTML export including linked resources makes this ideal for supporting DiDA.
- Pupils use visual diagrams to develop and organise ideas as they start the writing process.
- Supports the planning and writing of essays, stories, letters, reports, websites, Microsoft® PowerPoint® presentations and projects.

- Ideal tool for presenting information in stages and as part of a Q&A session.
- Visual representation deepens the pupils understanding of concepts and identifies misconceptions.
- Export documents as PDFs - ideal for creating resources to use within a VLE.

On-screen Typing Tutors

Learning to type is an essential skill in this electronic age! Being able to touch type properly, without looking at the keys, has many advantages. Pupils can concentrate on what they are writing rather than hunting for letters on the keyboard. Efficient typing has also been shown to support spelling as motor memory assists the brain in selecting the keys to press. It also helps prevent serious medical conditions such as Repetitive Strain Injury. Our typing tutors can enable your students to learn to type, whatever their age or ability!

UltraKey 5 - an outstanding typing tutor from primary to adult.

- Features 3D animated demonstrations.
- Demonstrates every action with incredible realism, accelerating your typing effectiveness in minutes.
- Interactive virtual reality - uses this to explore and learn safe posture and the correct keyboarding technique.
- Adjusts to every user's needs - keeps an unlimited number of records, imports your own test material, offers fun activities, has variable font sizes and reads on-screen text aloud. Suitable for those with special needs.

- Live classroom video - visit a real keyboarding class. Observe how student typists reach average speeds of 80 words per minute.
- Listen first hand to professionals confirm the importance of keyboarding.
- Browse the built-in Keyboarding Support Centre for information about vital topics such as repetitive strain injuries (RSI's).
- New Typing Forum - test your skills with real timed typing tests right on screen. Use the extensive test bank or create your own test copy!
- For Windows and Macintosh computers.

0729	Win/Mac CD-Rom	£32
1382	Home edition (home use only)	£24

Touch Type 2 - Fun and easy to use but also challenging.

This typing tutor works at your own pace. See the letter, hear it, then type it. A full on-screen picture of the keyboard teaches the home keys first, then introduces the others through a range of exercises.

The program also includes a monitoring system to show where you need practice. *Touch Type 2* is suitable for all ages and is adaptable for special needs. The program speaks the next letter to be typed and has the option of changing the font, font size and font colour - suitable for visually impaired users.

0185	Win/Mac CD-Rom	£39
0205	Site licence (up to 10 users)	£155
0204	Site licence (up to 50 users)	£280

First Keys 3

A friendly introduction to the keyboard that uses speech, phonics and Widget symbols in colourful and engaging missing letter exercises to teach literacy skills.

An array of exercises stimulate interest and develop vocabulary as well as keyboard awareness. Make spelling exercises to

support literacy activities, curriculum topics or personalised learning. Teachers can monitor the progress of a pupil; so activities can then be structured to provide the highest impact on learning.

4375	Windows CD-Rom	£59
4376	5 user copy	£135
4377	10 user copy	£190

Neo2 by AlphaSmart

Neo2 is a great digital notebook or writing tool to be used in the classroom, across all ages and abilities. It enables schools to get more ICT for their money, as well as get better use from the ICT that is already within the school. Neo2 is robust and easy to use as Neo, and still has the same wonderfully long battery life of over 700 hours from just 3 AA batteries.

- Incorporating wireless technology from AlphaSmart's successful Classroom Response System (CRS), Neo2 enables teachers to use a suite of Neo2's as a classroom voting and assessment system. Get instant feedback with the *2Know!* voting software or use *Acceltest* to design tests and quizzes that are, once downloaded and completed on a student's Neo2, marked and graded automatically. Both systems include a short answer feature that is unique to the Neo2.
- Transfer text wirelessly to *Neo Share*, the interactive whiteboard text portal, or to a GoogleDocs account.
- Print wirelessly to your computer's default printer.
- Neo2 works with *Co:Writer* and Text2Speech to create a low cost but powerful writing aid. The new Text2Speech device and Neo's built-in SmartApplet software let you convert any written text into spoken words. With this simple and affordable add-on device for Neo1 and Neo2, you can enable students of all abilities to expand their learning experience through text to speech. As you enter text into your Neo, it is passed wirelessly to the Text2Speech box and read out either through headphones or speakers. Text2Speech also supports the *Co:Writer* SmartApplet.

3165	Neo2	£139
3166	Neo2 Class Set (5 units)	£649
3804	Neo2 with Neo2 Receiver	£169
3805	Neo2 Receiver	£99

Neo2 Bundles

3947	Neo2 with Co:Writer for Neo	£200
4476	Neo2 with Text2Speech	£234
4477	Neo2, Co:Writer for Neo and Text2Speech	£295

Text2Speech

Text2Speech converts any Neo or Neo2 into a talking word processor. Whilst the user is typing, text can be read out by letter, word, sentence or paragraph. When

reading documents back, the words are highlighted as they are spoken. Text2Speech will also work with the Neo's spell checker and thesaurus. It is compatible with *Co:Writer* for Neo too. Text2Speech is a small external unit that connects to the Neo via infra-red. It runs on two AA batteries for up to 30,000 words spoken. The reading speed and volume can be easily altered and there is a choice of male or female voices. It can be used with headphones for personal use or with speakers for communication with others.

4100

Text2Speech

£99

Co:Writer for Neo

Add the power of word prediction to your Neo or Neo2! An ideal portable solution for those struggling with pen and paper tasks. *Co:Writer* for Neo can reduce the keystrokes required by up to 80%. Its high quality word prediction helps struggling writers construct complete, grammatically correct sentences. Includes a 6,000 root word dictionary. Over 200 supplied topic dictionaries help students use appropriate topic specific words when writing on any subject. By using *Co:Writer 6* (page 18), new topic dictionaries can be created in seconds from any text or website. Fully compatible with the new Text2Speech unit. Users can have word predictions read aloud to help them select the word they want.

Jumbo XL Keyboard

With function keys and a USB connection!

New Jumbo XL is an excellent first keyboard for young children. It has chunky 25mm square keys that are colour coded and easy to find and press. They also help the user to identify vowels, consonants and punctuation marks.

The keyboard has all the standard keys with the exception of the numeric keypad. It has separate function keys (F keys), a Windows key and Shift keys on both sides of the keyboard. Jumbo XL has USB connectivity as standard. In addition, there are two extra USB ports on the right hand side. These are really useful for attaching a numeric keypad, a mouse, trackerball, joystick or webcam etc.

Windows or Mac compatible (all keys have a Mac function). The overall dimensions of Jumbo XL are the same as a standard keyboard – 48.2 x 17.9 x 3.4cm.

Jumbo XL uses reliable membrane technology, with a life beyond 1 million strikes, and has a limited lifetime warranty.

2119	Jumbo XL lowercase	£49
2118	Jumbo XL uppercase	£49

0783	LX clear keyboard glove	£25

Clevy Keyboard

The Clevy Keyboard is tough, clear and child friendly, with large lowercase letters. The simple layout and colour-coding makes it easy to find the keys: blue for letters (light blue for vowels), red for numbers, orange for punctuation and green for actions.

- Big keys (2cm x 2cm).
- Lowercase, child friendly letters.
- Colour coded keys for easy and fast recognition.
- Sturdy construction.
- PC/Mac compatible - USB/PS2 connection.

3151	Clevy Keyboard	£69
3180	Clevy Clear Plastic Keyguard	£49

High Visability Keyboards

Keys-U-See Large Print Keyboard

This user friendly large print keyboard also has 12 'hot keys', providing easy access to common functions. It is a full sized enhanced 104 key keyboard with standard layout, printed in big and bold 41 point typeface. It uses high quality membrane switches designed to withstand over 10 million keystrokes. USB connection with a USB to PS2 adaptor supplied for users without a USB port.

3767	Keys-U-See black on yellow uppercase	£39
3878	Keys-U-See white on black uppercase	£39

Large Print Keyboard

- A robust, standard keyboard with extra large and clear text on the keys, making it very suitable for users with a visual impairment.
- The lettering is more resilient than large print stickers.
- Available in black with yellow lettering, in either uppercase or lowercase (please specify when ordering).
- USB connection.

1483	Large Print uppercase	£29
1484	Large Print lowercase	£29

Keyboard Stickers and Gloves

Full Keyboard Stickers

These stickers include every key in upper and lowercase. Includes four sheets of stickers - white on black, yellow on black, black on white and black on yellow.

3124	Full Keyboard Stickers	£10
------	------------------------	-----

Kid Glove and Keyboard

This keyboard glove has lowercase stickers on the inside and comes with a keyboard which it fits like a glove! The high contrast gloves are helpful for people with a visual impairment. Available in lower and uppercase, and a variety of colours - see www.ittools.co.uk

n/a	Kid Glove and Keyboard	£43
-----	------------------------	-----

Alphabet Keyboard Stickers

0154	Alphabet Keyboard Stickers	£5
------	----------------------------	----

Clear Keyboard Glove

Whatever your keyboard, we have the glove to fit! We have gloves for over 2,000 keyboards. Simply place an order and we will send a form for you to fill in to make sure you get the correct glove.

0329	Clear Keyboard Glove	£18
------	----------------------	-----

Little Mouse

Little Mouse is a small two button mouse with a "green go" left click and "red stop" right click, recommended by teachers when instructing young children how to use a computer mouse. Little Mouse has no scroll wheel, it's easy to control and is made of rugged plastic for strength and durability.
 Size: 3.38" long x 2.25" wide x 1.25" high.
 USB with PS2 adapter included.

5275	Little Mouse USB/PS2	£24
------	----------------------	-----

SMALLtrack

The SMALLtrack is a simple rollerball ideal for small hands. The SMALLtrack is perfect for young children learning cursor control, with a bright contrasting rollerball and colourful left and right buttons.

5692	SMALLtrack USB	£25
------	----------------	-----

BIGtrack

Designed for children, the BIGtrack doesn't require control with the fingertips - a swipe at the ball and at the buttons works just as well.

BIGtrack has these great features:

- Simple to set up.
- The design is suitable for the desktop or your lap.
- There is no need for fine motor skills to operate BIGtrack.
- Two big mouse buttons.
- High contrast colours.

BIGtrack has left and right mouse click buttons located behind the trackerball to help prevent unwanted clicks. BIGtrack also allows for a second mouse to be connected simultaneously. Works on any Windows or Macintosh computer that has a USB or PS2 port. Also available with two standard 3.5mm switch sockets, allowing switch access to the left click and right click functions. Plastic guard available. See website for full details.

0348	BIGtrack	£58
0349	BIGtrack with switch sockets	£89
5111	BIGtrack Plastic Guard	£39

Single Button Mouse

Often requested by teachers across the country, this mouse is great for both SEN and Foundation pupils that have problems distinguishing between a left and right mouse click. Requires USB connection and Windows '98 or later version.

2295	Single Button Mouse	£24
------	---------------------	-----

Microspeed KidTRAC PC Max USB

A large, sturdy, affordable, three button trackerball which is 100% Microsoft mouse compatible. Easy to use: just plug in and go! The low profile case acts as a natural hand rest and minimizes the wrist angle by mirroring the natural contour of the hand.

Includes a drag lock feature - simply press the drag button and the button stays locked until you press a second time. Supplied with USB connector. For PC only.

0581	Microspeed KidTRAC PC Max USB	£69
------	-------------------------------	-----

Glidepoint Touchpads USB

Cirque's Glidepoint Touchpads allow you to simply glide your finger over the touchpad surface and gently tap (or click the buttons) to perform all input functions. With three categories of desktop touchpads to choose from, there is a solution to fit your digital lifestyle.

3873	Easy Cat Glidepoint Touchpad	£26
3874	Smart Cat Glidepoint Touchpad	£39
3875	Smart Cat PRO Glidepoint Touchpad	£49

Inclusive Technology Information Days 2012

FREE

Our free Information Days are a great opportunity for teachers, SENCOs, support staff, advisors and others supporting pupils can come together and see how technology is changing the lives of all learners. Delivered by members of our respected and highly experienced Information Team, these one day sessions are packed with practical ideas and advice.

Inclusive Classrooms - Supporting Struggling Readers and Writers

This day focuses on using ICT to support students with special needs in mainstream settings. This includes looking at providing access to the computer for those pupils who struggle with the keyboard and mouse, including those with Dyspraxia. We will also explore how ICT can support those pupils struggling with reading and writing, including those with specific learning difficulties such as dyslexia.

- Simple adaptations to the keyboard and mouse, including what is built in the Operating System.
- Alternatives to the keyboards and mouse – from large keyboards to eye gaze.
- Software to improve access: word prediction and speech recognition.
- Text to speech, word banks and word prediction for struggling writers.
- Portable book readers like Kindle, iPad, Slate and LearnPad.
- Where to obtain electronic texts for free.
- Creating accessible electronic texts and copyright issues.

To book your place call us on **01457 819790** or see www.inclusive.co.uk/events for videos and further information
